

## GAS ASPHYXIATES AN ENTIRE FAMILY

### Narrow Escape from Death of Mr. and Mrs. J. F. Houser and Two Children

### Physician Works for Hours Resuscitating Father and Son—Trouble Was Caused by Leak in Ceiling Pipe and Connections With Heating Stove.

A leakage in the gas connections at the home of John F. Houser at 122 Oakwood avenue was nearly responsible for the death of the entire family of four on Sunday morning.

Mr. Houser is employed as an inspector of boilers at the B. and O. shops and arose early Sunday morning to go to his work, and his wife arose with him and was soon preparing breakfast. The little boy, Griffith, aged three years, was soon up and busily engaged at his play.

The father complained to his wife of a nauseating sickness and she said that she also felt seriously ill. Both Mr. and Mrs. Houser attributed their sickness to some toasted marshmallows they had eaten the night before and which they thought might have been poisoned. Remembering that the children had eaten of them also they turned to find the boy.

He was unconscious, having fallen among his playthings. As the father stooped to pick him up, he fell to the floor and his wife could not arouse him. Mrs. Houser, nearly frantic with fear and feeling that it would be but a short time until she herself would succumb to unconsciousness called to her mother, Mrs. Schilling, who lives just across the street.

Mrs. Schilling answered her daughter's call at once and on entering the

Houser home, she immediately detected odor of gas. She at once assisted Mrs. Houser out on the porch and then carried the baby, Virginia, aged seven months, out into the air.

Dr. W. S. Turner was hurriedly summoned and gave his attention to Mr. Houser and little Griffith, while Mrs. Schilling worked with the baby. From seven o'clock until 11:30 Dr. Turner applied every means known to resuscitate Mr. Houser and it was only then that he was able to perceive some signs of returning consciousness.

The boy, Griffith was in a comatose state for three hours and his life was despaired of, but the little lad is now thought to be out of danger.

A thorough investigation of the house showed a bad connection of the gas fixtures, for lighting purposes, where the chandelier joined the main pipe in the ceiling and also a bad leakage was found at the connection of the heating stove in the bed room.

That the entire family did not suffocate before help reached them is miraculous for the house was filled with the fumes and it required several hours before the residence could be thoroughly rid of the gaseous vapor.

Both Mr. Houser and his son are still suffering from the poisoning, but their condition is not serious. Mrs. Houser and the baby have fully recovered.

as the result of a fierce Moro uprising in Southern Mindanao. Much damage has been done to property in the district by the Moros, who have always defied subjugation. The entire native population is in revolt.

Filipinos throughout the archipelago are holding mass meetings demanding the resignation of Secretary of the Interior Worcester. They say his utterances are to blame for the revolts. The American residents generally uphold Worcester.

## ROYALIST PLOT AGAINST REPUBLIC

Lisbon, Oct. 31.—Further arrests were made today in the royalist plot against the republic. President Braga says the ringleaders have been caught and nothing will come of the plot. Thirty-four officers have been arrested, besides a number of politicians.

## NEXT HOUSE WILL HAVE A DEM. MAJORITY

New York, Oct. 31.—The New York Herald's fourth forecast of the congressional elections is printed below. Extra pains have been taken to test former estimates of doubtful districts but all surface indications show a decided tendency toward democracy.

This is not a partisan forecast, but an earnest effort to ascertain how the country is going with reference to the house of representatives in the Sixty-second congress.

The Democratic figures have mounted from week to week until in the districts where the indications favor the Democrats now number but two less than an actual majority of the house.

In the table and the map which accompany the Herald's congressional forecast this week, there is much to encourage the Democrats and dishearten the Republicans. The districts reasonably sure to be Democratic and showing a favorable inclination that way have increased from 179 a week ago to 194. The districts that are Republican or show a strong inclination toward Republicanism have grown from 152 to 157. The doubtful districts have decreased from 61 to 40.

The present congress stands 217 Republicans to 174 Democrats. The Herald's forecast for the next house is 194 Democrats, 157 Republicans, doubtful 40.

## DEATHS FROM BALL GAMES

Chicago, Oct. 31.—Statistics published today show there were 21 deaths resulting from baseball in this country during the 1910 season. Three of these are rather extraneous, being deaths of negroes resulting from a riot over a game.

## LOOK FOR BIG LABOR TIE UP

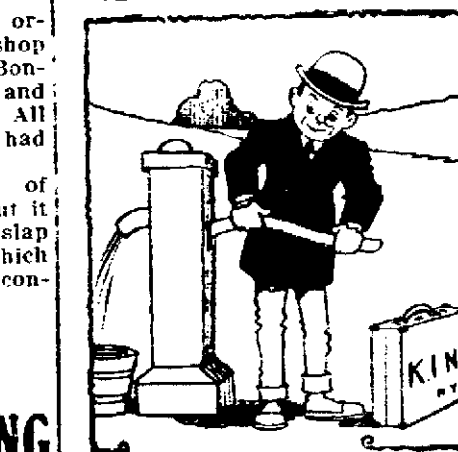

New York, Oct. 31.—It is now believed certain that an immense labor tie-up will occur here unless the express strike is speedily settled. The companies' offer of increased pay without recognition of the union has been refused. The men are again in an ugly temper and were further enraged by the placing of uniformed police on the wagons. They will protest to Mayor Gaynor against this action, which they call using the city police as private guards.

Unless these men are withdrawn the officials of the union say they will call out every union teamster in New York.

## OIL EXPLOSION DESTROYS HOTEL

San Francisco, Oct. 31.—An oil tank in the basement of the Clyde Hotel exploded today, seriously injuring 15 persons and starting a fire which totally destroyed the hotel.

## LABOR LEADERS FOR GOV. HARMON AND DEMOCRATS FOR SUPREME JUDGES

Cleveland, Oct. 31.—The joint committee of the Ohio State Federation of Labor and the Brotherhood of Railroad Trainmen has submitted to its organization a report on the record of the candidates for Supreme Judge.

The report says that Judge W. B. Crew, in cases between working men and companies, has voted upon 73 cases in favor of the company. In a very large percentage of these cases one or both of the lower courts had ruled against the company.

Judge A. N. Summers, the report continues, has voted upon 62 cases in favor of the company, in most of which cases one or both lower courts had ruled against the company.

Of the Democratic candidates, the report says Judge W. H. Donahue is eminently fair, both to corporation and employees, in passing judgment upon matters of contention between them.

James Johnson Jr., is reported to have "established the right of a union

with criminal records. On March 10, 1910, Hunt wrote the judges protesting against the reappointment of old jury commissioners. The eight Cox judges proceeded to reappoint them, in spite of a vigorous protest from Judge Gorman.

Hunt had a hand-book game raided one Saturday, seizing the safe which contained the evidence of guilt. A Cox judge issued an injunction on Saturday against removing the safe and dissolved it on Monday. But the gambler had custody of his safe over Sunday. That was time enough for the evidence to disappear from the safe.

The anti-gang prosecutor got after the gamblers. One of his detectives got evidence against the Hudson & Bauer gambling joint. The detective was arrested by gang police on the charge of being without means of lawful support. At the trial Prosecutor Hunt testified that he employed the detective. All the same the Cox judge found him guilty of being without lawful means of support.

An attorney was convicted of embezzlement and sentenced to the pen. Conviction and sentence were set aside by the Cox circuit court and the lawyer discharged. Supreme court reversed the circuit court, but in the meantime the embezzler disappeared.

The leader of a band of burglars and safe-crackers was convicted and sentenced to the pen for having burglarized tools in his possession. The conviction was set aside by the Cox circuit court and the case sent back for a new trial. Against the protest of the prosecutor, burglar released on \$2000 bail. The burglar forfeited his bond and disappeared.

The disorderly house of Minnie Brown was attacked by county treasurer for not paying the liquor tax of \$1000. She made affidavit that she paid a clerk in the gang county auditor's office and Cox captain in the Seventh ward, \$500 to keep her name off the list.

Another woman made affidavit to the same thing as to her house. They were taken before the grand jury. No indictment. One member of that grand jury later received a city job at \$1400 a year; another sells supplies to county institutions; another is a brother of an assistant in the clerk's office.

Hunt had Dan Bauer indicted for running the "Majority" which the prosecutor described as "a factory for converting the innocent to viciousness; a training school and a market place for immorality." Over 25 policemen testified it was a rendezvous for prostitutes. One officer testified he had made 30 arrests there. The jury deadlocked 6 to 6. Bauer was a member of the gang. Public sentiment grew so strong that the Cox mayor closed the place.

This merely scratches the surface of the rottenness in Cincinnati under gang rule. It will give the people of Ohio, however, a fair idea of what to expect if this same gang can control the machinery of state government and pick gang judges to administer justice all over Ohio.

The head of this gang is George B. Cox, the "great, big, manly, modest man," to whom Warren G. Harding yields "deference and devotion."

### Statue of Liberty Circled by Three Aviators Sunday

## AMERICAN THE WINNER

### Great Skill Shown and Hundreds of Thousands Witness Flights.

Belmont Park, L. I., Oct. 31.—Although the aviation meet officially closed last night a number of special events will take place today. A two-hour race from 1:30 to 3:30 for total prizes of \$35,000 donated by the Aero Club, and a grand altitude contest are scheduled. No prize will be awarded in the latter event unless a minimum height of 4000 feet is attained. The man going above that is to get \$500. If he breaks the American record he will get \$1000, and a new world's record will bring \$2000.

Grahame White is indignant at the Aero Club for their rule preventing him from bettering Moisant's time in the Statue of Liberty flight. He says they have consistently favored American flyers, in a very unsportsmanlike manner, and it would be useless to protest.

At the end of the first hour in today's two-hour flight the score stood, Moisant 22 laps, Latham 18 laps, Simon 15 laps, Mars 1 lap.

New York, Oct. 31.—Three aviators flew from Belmont Park, L. I., Sunday afternoon, circling the Statue of Liberty in aeroplanes, swept back through the upper air without a mishap, alighted chilled but exultant.

Moisant used a 50-horse power. Bleriot purchased from the French team for \$10,000. He had previously smashed his own monoplane. He did not start until 4:06 p. m., after both DeLesseps and Grahame-White had finished. DeLesseps started at 3:08 and Grahame-White less than a minute later. The written rules prescribed that no contestant should start after 3:30 p. m., but they were not enforced.

John B. Moisant, flying for America, covered the estimated 36-mile course in 34 minutes 38.4 seconds. Grahame-White of England was second in 35:21:30 and Count DeLesseps of France was third in 41:56:25. None, however, wins the \$10,000 prize for the flight, offered by Thomas F. Ryan, as the rules prescribe that the contestants can start any time between 2:45 p. m. and 3:30 p. m. any day of the international aviation meet. Under this interpretation, Moisant, although he protested, must await the result of any possible flights today. He is at liberty to better his time of yesterday, as are DeLesseps and Grahame-White. Hardly had the bomb announcing the Statue of Liberty flight exploded in midair when up from the field scurried DeLesseps in his 50-horse power Bleriot.

Gracefully he arose, with the motor droning perfect attunement, circled across the starting line, and, as though to make sure that his machine was shipshape for the flight of 36 miles, he flew about the course and then pointed its prow upward and west and went sailing majestically over the grand stand.

Nothing daunted by the jump the Frenchman had got on him, Grahame-White, in less than a minute, was in the air in a Bleriot of 50-horse power. There was no preliminary skirmishing on his part. Once past the starting pylon, the Englishman was off on his journey, and figuratively speaking, at the heels of DeLesseps. Grahame-White's machine appeared to be the faster of the two.

Passing the grand stand at an elevation of about 1000 feet, both aviators headed above the railroad tracks which took them over the Jamaica Plain and across the town of Jamaica. Here they were sailing at an elevation of about 2000 feet, with the Englishman still chasing the Frenchman, half a mile astern. Every vantage point was filled with awe-inspired spectators; automobiles clogged the thoroughfares, and matrons stopped their cars in order that they and their passengers might witness the duel in the air.

The sky was cloudless and the two flying monoplanes silhouetted against the blue sky made a beautiful picture. So far up were they that the whirring of the motors was scarcely audible.

On over Jamaica, still following up railroad as a guide for their flight, DeLesseps and Grahame-White held their course into Brooklyn—the city.

He held this position up to the time when he was appointed assistant trainmaster and assistant road foreman in 1907. course and followed the elevated railroad structure, but finding himself growing wrong, he turned again toward the tracks of the Long Island railroad and followed them back to Belmont Park. Moisant did not fly at the high altitudes of Graham-White and DeLosses. Probably 2000 feet was his average, but often he was below that. Certainly he was not much above 1500 feet when he reached the aerodrome. He was numb with cold but was happy as a school-boy when his time for the 36 miles showed that he had accomplished the feat at better time in the aggregate than a mile a minute.

Concerning his flight Moisant said last night:

"I started with the wind against me. It was a biting, icy wind. I climbed higher and higher as I went along. This I did purposely, for by climbing two objects were accomplished. One was to make as much speed as possible, of course. By slanting upward in going against the wind it was apparent that much of its deterrent force was broken. The other reason was I had made up my mind that to win I must travel directly over the city of Brooklyn. I knew there was danger in this. Every aviator knows the strange and treacherous air currents created by a big settlement of buildings. The higher up I was the better I could escape these whirling, twisting currents and the less the danger, for if anything happened to the engine I would have the greater opportunity to glide and manipulate the planes until I might discover some park or open place in which to effect a safe landing or at least a landing of less peril to my life.

"It is hard for people generally, perhaps, to understand that with us aviators the higher up we are the safer we feel. If you start to fall near the ground you have little chance to save yourself. But from far above, you have many chances of righting your plane."

Moisant is indignant at the prospect of Graham-White and DeLosses being allowed to compete again today. He won, he contends, and even if the rules leave the contest open to any aviator during any hours of any day of the meet he holds that he has eliminated his rivals of Sunday.

"If they let Graham-White have another chance," declared Moisant, "I shall demand that the meet be extended further so that I may have another chance. Graham-White is flying a four-horse power Bleriot. The meet officially ended last night and today's flight was supposed to be confined to the program of last Sunday, which included weather prediction. No other flight should be allowed today and if there is, I shall ask for a postponement of several weeks to allow me to get a 100-horse power machine.

"It is just as fair for them to grant this to me, as it will be if they let Graham-White fly a second time today. I don't care a farthing about the \$10,000, but I do care for the honor of America and as we have won fairly I think we are entitled to the honor and credit."

It was reported late last night that the aviation committee had decided to let Moisant's protest on the ground that the meet officially closed Sunday and that flights today therefore could consist only of the deferred flights of last Sunday and whatever special events the committee might be able to arrange.

## DENISON PLAYS TIEUP BALL

Football Rupp Takes Advantage of Cooke's Fumble and Scores Touchdown.

Every available store box in Grantville was hiked up last night by flames, kindled by Denison students, who held something more than a mild celebration of the outcome of the annual football game with the Ohio State Varsity. Though the score was even at five, all the Denisonians were quite as cheerful as the Ohio States were after the tie with Michigan only seven days before.

Out of the fray came Edson Rupp, hero, and Clement Cooke, goat. Rupp, the Denison player, dealt the varsity a stinging blow, as when Cooke, after a fumble, threw the ball into the hands of Rupp, who caught it and ran it in.

It is unusual that the man who punts a ball rushes down the field, recovers it and darts over to a touchdown. That was Rupp's feat, creditable in the extreme, even if a gift did show in strategy, defense and offense, charging over the goal line played tag with the ball instead of reaching it when in the air.

Captain Cooke, Denison, S. C., and Rupp, Grantville, were the only players who were not tackled.

### JOHNNY EVERS IS SATISFIED WITH POSITION.

Chicago, Oct. 31.—Johnny Evers will stick with the Cubs and play ball in Chicago as long as he is wanted here. Ordinarily it would go without saying, because organized baseball does not give the ball player much voice in the matter. But Johnny's case was different.

By the terms of the agreement between Evers and Manager Chance when the former signed a two-year contract in 1908, Johnny was to be allowed to leave the Cubs at the end of the 1916 season if he desired to better himself and could do so. The chance to better himself, temporarily at least, came in the form of two offers to manage baseball teams, but the desire to accept them did not materialize.

Before leaving for California Saturday night Manager Chance called on Evers at the busy store on Monroe street, corralled Johnny in his private office, locked the door, and began a real heart to heart talk. The P. L. said he was there pen in hand ready to make good on their two-year-old agreement if Evers wanted his release, and put it up to the player pointblank. Johnny did not even stutter in replying that he was ready to stick with the Cubs if Chance wanted him, and that settled it.

## CATARRH

### A SPECIFIC BLOOD IMPURITY

Catarrh is a deep-seated blood disease, one which no amount of local treatment will ever permanently cure. The beneficial effects of washes, sprays, inhalations, etc., are only temporary, and when left off the old condition returns, because the blood is infected with catarrhal matter and impurities. This impure condition of the circulation irritates and inflames the delicate mucous membranes and tissues and produces the well known symptoms of ringing noises in the head and ears, mucus in the throat, headaches, watery eyes, partial deafness, sore throat, general impairment of health, etc. This condition will remain, growing worse as long as the catarrhal matter is allowed to remain in the blood. Being a specific blood impurity, there is only one way to cure Catarrh, and that is to purify the blood. Nothing equals S. S. S. for this purpose. It attacks the disease at its head—in the circulation—and by thoroughly renovating the blood and cleansing it of all impure matter, makes a permanent and lasting cure of the disease. For forty years S. S. S. has been recognized as the best blood purifier, and the thousands of cases of Catarrh it has cured is proof that it is the very medicine needed by those who suffer with this trouble. #### The Old, Old Question of Platonic Friendship.

WOULDN'T you like to have known Plato? Wouldn't you like to have been one of those students who trotted around after him and heard him talk? Wouldn't you like to have had firsthand views of platonic friendship, or platonic love as it should perhaps more rightly be called.

At any rate, Plato had a good long vision. For he saw far ahead even of this century when he pictured friendship of this kind, though perhaps humanity today believes to a greater extent in it than ever before. That is, the camps of believers are growing. For there are still the two hostile camps; those who say such an affection between a man and a woman is impossible, and those who say it is quite possible.

Those who maintain that platonic friendship is impossible declare that sooner or later one or the other drops over from the purely platonic feeling into something deeper; that no matter how good their intentions may be when they start, the platonic finish wears thin, and everyday human love creeps through.

But is this result really necessary? Isn't it because of preconceived notions of the relations of men and women, the mental attitude of the world since time began toward these things?

Take a man and woman who are congenial to some extent, but who would never think of falling in love with each other, and if neither had any of these preconceived notions, could they not go on being friends until the end of time? Or, if they were big enough, or advanced enough, or unconventional enough to throw such notions aside, couldn't they enjoy a most delightful friendship while they continued to have tastes in common?

Surely they could. And as men and women enlarge their views, surely this will come to pass.

Many a friendship of this sort exists now between "big" men and women, people who think things out.

## TEDDY IS MUM ON CANDIDACY

New York, Oct. 21.—Colonel Roosevelt has flatly refused to make any statement that he will not be a presidential candidate in 1912. The state leaders hoped to get such a statement from him to aid in clearing the political atmosphere, but they have failed. He talks at nine meetings in New York city today and has again expressed confidence that Stimson would win. He will talk in Baltimore, through Iowa and Ohio this week and returns here to close his campaign on Monday night.

WITH A SEVERE COUGH THE BOWELS NEED A LAXATIVE.

Make This Laxative Cough Syrup Cheaply at Home.

Any one can make a full pint of finest acting laxative cough syrup for about 75 to 80 cents. About eight times cheaper than labeled cough syrups, because a pint will last a family a long time. First, obtain of any well stocked druggist 2 1/2 ounces of essence Mentho-laxene; empty it into a pint bottle. Then make a syrup with a pint of granulated sugar and a half pint of boiling water. Stir, let cool and fill the bottle with the syrup. Shake well and take a teaspoonful every hour or two. Eight to ten doses daily will act as a mild laxative, check the cough instantly and cure it quicker than anything you can buy. This syrup builds up the system and makes the tissues of the throat and lungs healthy. Chronic cases yield most readily to its beneficial action. Give children less according to age.

Knead with the hands, roll in little balls, drop in buttered tins and bake in a hot oven.

Mutton a l'italienne.—Take about half a pound of cold mutton, three ounces of macaroni, two tomatoes, one ounce of butter, half an ounce of flour, half a pint of good stock, one small onion, salt and pepper. Break the macaroni into pieces about an inch long, then boil it into plenty of fast-boiling salted water until it is tender; drain it well. Remove all skin from the mutton and chop the meat coarsely. Melt the butter in a stew pan, chop the onion finely, and fry it in a golden brown in the butter. Then shake in the flour and fry that also. Lastly, add the stock and stir it until it boils. Next stir the chopped meat into the sauce; see that it is nicely seasoned.

**LICKING COUNTY'S MODEL SHERIFF**

Never in the history of Licking county has there been an office filled in an emergency with such ability, faithfulness and efficiency as that which has characterized the discharge of the duties of the Sheriff's office for the past four months by Mr. Frank E. Slabaugh.

The occasion on which Mr. Slabaugh took charge of the Sheriff's office was a peculiar emergency and the best of ability in every regard was an absolute requirement. For this reason

FRANK E. SLABAUGH.

Licking county was peculiarly fortunate in having Mr. Slabaugh appointed by the Commissioners on the resignation of ex-Sheriff Linke, which occurred on the third day after the deplorable tragedy of July 5.

When Mr. Slabaugh was appointed and took office he was unprepared for such a sudden change in his business affairs. It was a matter that he had not contemplated at all, but he mastered the details of the situation with all the promptness possible and took hold of the duties of the office with a facility and aptness that no man anywhere could have excelled.

Under the circumstances it was fortunate that Mr. Slabaugh, being a good lawyer, possessed the qualifications that were so highly essential for the emergency, as every lawyer at the Newark bar well knows.

Being a good lawyer, as Mr. Slabaugh is, he possesses a qualification rarely found in the Sheriff's office and which is to the advantage of every lawyer at the bar and every litigant in the court.

Besides, Mr. Slabaugh possesses all the other essential qualifications to make a model Sheriff, and the manner in which he has discharged the duties of the office since his appointment cannot be justly criticized by the members of the bar.

Thoroughly capable and accommodating, Mr. Slabaugh has made and will continue to make a model Sheriff. He deserves election by as large a majority as any man can receive for the office in Licking county.

**TAFT AND THE TAX ON CORPORATIONS**

Nicholas Longworth of Cincinnati, chairman of the Republican State convention, after stating that Governor Harmon was disqualified for the presidency because, as a lawyer, he had acted as attorney for corporations, said: "An Ohio man, a lawyer, too, is President of the United States. How different have been the use of his talents. They have not been employed in the services of the railroads and corporations, but in the service of the people."

When the bill was introduced in Congress providing for a tax on corporations, the rate of taxation was fixed at 2 per cent on the net income over the above \$5,000. At the special request of Mr. Taft the rate was reduced to 1 per cent and, as the taxes collected for the year 1909 aggregated nearly \$25,000,000, the saving to these special interests by cutting the rate, was an amount equalling the tax collected.

As this enormous sum must be made up by the increase of rates on commodities used by the masses of the American people they are likely to differ somewhat with son-in-law Nic when he calls this action of the President giving the corporations "a square deal" and will rather conclude that it was simply a saving to these interests of about four times the amount they contributed to the campaign fund that elected Mr. Taft in 1908.

**COULD A MAN OF HARDING'S CALIBER HAVE BEEN MADE RECEIVER OF THE C. H. & D.?**

The insolvent C. H. & D. railroad needed a Receiver under whose management its business could be transacted in a manner by which the road would be enabled to pay its debts. Under such circumstances the Receiver is always appointed by the Judge of the Court where the proceedings have been brought.

In the case of the C. H. & D. railroad the proceedings were brought before Judge Lurton of the United States Court of Cincinnati and he appointed Judson Harmon as Receiver.

Now does anybody in all Ohio suppose for a moment that Judge Lurton would have appointed a man of the caliber of Warren G. Harding, to such a responsible position?

And what sort of a man is Judge Lurton, who appointed Judson Harmon as Receiver of the C. H. & D. railroad and who PASSED UPON ALL THE RECEIVER'S TRANSACTIONS AND APPROVED THEM TO THE LETTER?

He is the same Judge Lurton whom President Taft has since appointed to be a member of the Supreme Court of the United States.

As has been stated and widely published, the business transacted under Judson Harmon's C. H. & D. receivership amounted to \$9,000,000 a year, equal in magnitude to the entire business of the State of Ohio.

And it is well known that Judson Harmon made a national wide record for the splendid manner that he transacted the business of the insolvent C. H. & D. railroad, paid off its debts, restored its credit and kept up the wage scale of its 10,000 employes to their entire satisfaction.

**DON'T MARK TIME FOR MOLLYCODDLE INSURGENCY!**

(Columbus Citizen Ind.)

What diffence does it make to Boss Cox how much a mollycoddle insurgent denounces bossism, if in the next breath that same foe of bossism pleads with all Republicans to vote the ticket the bosses made.

What does Foraker care for the savage onslaughts of insurgent champions, if those same champs beg all insurgents to vote for Foraker's candidate for governor?

Will Dick yell with pain when Garfield slaps him on the wrist, if Garfield asks insurgents to elect standpat legislators who will vote for Dick for senator?

Will Aldrich and Cannon lose sleep over the feather duster smashes of an insurgent, who at the same time is pleading for the election of standpat congressmen?

That whole standpat outfit have thick hides, and won't care a whoop what names they are called, or what definitions are given to Republicanism so long as they can pick the candidates.

As for a party platform, a little thing like that never bothered them anyhow. It was something to get in on, and to forget and forgive once they got in.

Let the standpatters win out in Ohio this fall, and they'll lick the insurgents two years hence as easily as they did this year.

For they'll kill a real direct primary law, knock the initiative and referendum in the head and chuck a non-partisan judiciary overboard if they get a legislature to their liking.

The surest way to get the Coxes, Forakers, Dicks and their ilk out of power is to kick them out.

If the mollycoddle leaders of insurgency in Ohio don't know that much, the quicker they get out of the way and quit trying to lead the people where they don't want to go, the sooner that much-needed job of housecleaning will be done. And the people will have to do it themselves. Marking time while straggling leaders are trying to catch up with the procession is valuable time lost.

If you're going to do it, do it NOW.

How can Dick be kicked out unless a Democratic Legislature is elected?

The voters who are misled by side issues that are not issues at all, to mark their ballots for the Republican Legislative candidates, ALL VOTE TO ELECT DICK.

**THE TIDAL WAVE CAN'T BE STOPPED**

Foraker has been lined up by the Republican state bosses to again take the stump for the party. Roosevelt is to make a whirlwind trip through the state during the week to assuage Governor Harmon, Garfield has been disciplined so that he will abuse nobody but Democrats. Three members of the Taft cabinet are to come into the state to help close the Republican campaign. And Dick will keep right on traducing Governor Harmon in the Republican boiler plate matter.

This is the array that Governor Harmon will have to confront in the closing week of the campaign. But the people are with the Governor, and the Republican bosses, big and little, will be unable to stop the tidal wave in Ohio that is sweeping the country.

**DEMOCRATIC MEETING AT MUSIC HALL**

In spite of an uncomfortable hall which was not properly heated, the Democratic meeting Saturday night was well attended. The orator of the evening was Hon. Swager Sherley, congressman from the Louisville (Kentucky) district, who has served four terms in congress and who at the present time is a member of the appropriation committee of the house.

Congressman Sherley is undoubtedly one of the most eloquent orators who has ever been heard in Newark. Unfortunately, owing to the uncomfortable condition of the hall he was compelled to shorten his address Saturday evening, but those who heard him speak in the highest terms of praise of his efforts in behalf of Democracy.

The reception committee met at the Licking county club rooms and marched to the Warden Hotel and escorted the speaker from there to the hall, the Buckeye band leading the parade.

Attorney Roderic Jones presided and in a short introductory speech presented the speaker of the evening. Congressman Sherley stated that as a member of the appropriation committee he had been enabled to compile statistics of the cost of running the government that were at once astounding and almost incomprehensible. One thousand millions annually were expended by all branches and so startling was this sum that the Republican leader of the senate, Senator Aldrich, publicly issued the statement that he could save the United States \$300,000,000 per year in operating expenses. He also told of the interview given out by President Taft in June that \$100,000,000 per year was being ruthlessly wasted and that that amount could be saved by economic methods.

The speaker next called attention to the fact that any number of corporations would only be too glad to take over the postal system of the government, charging the same carrying or postage rates that are being used by the government, and that they would make a good rate of interest on the investment, while the government has an annual deficit of from \$6,000,000 to \$13,000,000.

Mr. Sharley next took up the tariff question and proved to the most skeptical that its operations were radically wrong and that the greater burden of taxation fell upon the shoulders of the middle men or those burdened with but little property while his wealthier brother escaped. He told of how the cheaper grades of all cotton, woolen and flannel goods were taxed the highest and how there was a great decline in the cost of the higher grades of those goods which could be purchased by the wealthier class of people. The tariff schedule was framed for the benefit of the corporations and the common people must bear the blunt of the burden.

Congressman Shirley paid a brilliant tribute to Governor Harmon, whom he characterized as a man of the people, and said that Kentucky was ready to follow the lead of Ohio and that he hoped Governor Harmon would be returned that he might be in line for the greater leadership which awaits him in 1912.

**NO REBATING**

At Any Time After Harmon Was Made Receiver, Says C. L. Thomas.

Cincinnati, Oct. 31.—C. L. Thomas, general traffic manager of the C. H. and D. railway, who has been out of town, has just returned, and his attention being called to the speech of Mr. Harding at Cleveland Thursday evening, said:

"I was general traffic manager for the receiver during his entire administration as receiver. I have been in the traffic department of various railroads all my life, and I regard the attack on Governor Harmon and the C. H. and D. railway as extremely unjust, because no road ever more carefully lived up to the interstate and state commerce laws than did the C. H. and D. under Governor Harmon's administration of receiver.

"One of the very first acts after his appointment, was to write a letter to the general traffic manager, in which he said: 'Under no circumstances is the receiver authorized to recognize or pay any rebate, or any claim in the nature of a rebate, or anything else which is in violation of the Interstate Commerce or any other law. If this course causes discontent among our patrons and loss of business, responsibility is on the law and on the court, where it belongs. But I believe the time has come at last in this country when a railroad which obeys the law is not going to be at the mercy of its rivals because they break it. If that time has not come we have a good chance to find it out, and if there is any permanent loss of business due to this course it will simply be conclusive proof that our rivals are breaking the law while we are obeying it. If this result should follow from our taking an upright course I shall take occasion to bring the matter to the attention of the public authorities. It will be an object lesson of great value now when the subject of railroad legislation occupies perhaps the foremost place on the stage.'

"Receiver Harmon's attitude in requiring a strict compliance with the Interstate Commerce law was the same throughout his administration, and there has never been paid a rebate, or anything in the nature of a rebate, after the date he was appointed receiver. The letters which Mr. Harding quoted in his speech were letters concerning valid claims against the railway company prior to the receivership, which had been fully investigated and allowed as just claims.

"The purpose of the letters was to secure a means of paying these claims pending the receivership, in accordance with the orders of the United States Circuit Court. All claims so allowed were finally paid. The orders of the court permitted the receiver to pay from earnings those allowed claims whose payment would be beneficial to the property, and the letters referred to were written for the purpose of setting exact facts that might be submitted to the receiver under those orders of the court, rather than simply guesses or generalities.

"Some one anonymously, possibly the same person who is the source of Mr. Harding's information, some time ago sent to the Interstate Commerce Commission a letter in all respects the same as that quoted by Mr. Harding in his speech. The commission, after a full investigation, found that it had no criticism to make of this matter in any particular."

**THE ORPHEUM.**  
The vaudeville bill at the popular Arcade playhouse this week is headed by the Ten Dark Knights, the big musical feature direct from Keith & Proctor circuit, where they scored a big hit, introducing ten people, featuring Jack Smith, the principal comedian, supported by Messrs. Grange Collins, Warfield, Johnson, Scott, Alexander, Mobley, Smith and Bazan. Do not fail to see them as they will more than please you. Other added attractions are Von Hoff, the poetic comedy mimic; Miss Aubrey E. Rich, the dainty little comedienne and female baritone and character delineator, who will be especially pleasing to ladies and children, and Jack Woolf, a foot juggler. The Orpheumscope is a feature film, making another most pleasing and refined entertainment.

# ACTION OF REPUBLICAN COMMITTEE IS PUZZLING THE OHIO REPUBLICANS

Columbus, Oct. 31.—Wrinkled brows greeted the announcement that former Senator Joseph Benson Foraker had been requested to take the stump once more for the Republican state ticket. Accustomed to strange gyrations in that party's management of the campaign, the newest proclamation was just the understanding of the politicians of both parties.

When the controversy between Senator Foraker and former Secretary Jas. R. Garfield ended last week, with the fluff retirement of the elder man from the stump, the result was proclaimed as a great victory for progressive Republicanism and the cult of former President Theodore Roosevelt.

The consensus of the party, as reflected through its press, was that Senator Foraker had acted wisely in withdrawing himself and his personal grievances from the campaign.

Senator Theodore Burton openly and from the stump asserted that Warren C. Harding was not being given a "square deal" by the parties to the controversy. On the other hand, Isaac F. Mack of Sandusky, denounced Garfield liberally and pictured him as a "half-turned pancake."

Judge E. B. King gave it as his opinion that the state committee was "wooden-headed" and incompetent, because it seemed to favor the Garfield idea. Following this came the demand of Sherman Cuneo, of Upper Sandusky, that the committee in turn demand the withdrawal of Mr. Garfield and the suppression of the insurgents.

The progressive Republican press on its part hailed the enforced retirement of Foraker as a great victory, and announced that it meant thousands of votes for the Harding candidacy and the jeopardized congressional nomination.

All of this has been changed in the twinkling of an eye. Foraker is to return to the stump, and as Chairman Lewis C. Laylin admits, at the solicitation of the State Committee. It was because the body asked him to refrain from criticism of former President Theodore Roosevelt that Foraker canceled his engagements and retired to privacy.

There is deep speculation as to whether the Cincinnati statesman returns under stipulations as to his utterances. These were the cause of his retirement, because they drew the savage response of Garfield and of the progressive Republican press. No one today could be found who would believe that Foraker had consented to a modification of his views as to the new and strange doctrines of Roosevelt.

At Ravenna last week Mr. Garfield, significantly pulling a plecthronic envelope, asserted that it contained matter that would compel Senator Foraker to cease criticisms of his ancient foe, Mr. Roosevelt.

It was openly proclaimed by him that if Foraker repeated his attack at Sandusky on Thursday night he (Garfield) would reply in explosive and restrictive fashion at Bowling Green the following day. That he fully intended doing so there can be no question. Foraker's retirement prevented this promised explosion, which it was intimated was on the Archbold letter order.

Yesterday it was stated by one of United States Senator Dick's lieutenants that an agreement had been effected whereby Foraker and Garfield would suppress in their addresses all subjects having a tendency to produce friction and that personal exchanges would be eliminated.

It is scarcely conceivable, when the personality of the men is considered, that such a peaceable condition could be produced. Foraker, one may be sure, will not withdraw his denunciation of Roosevelt as the author of the treasonable changes in the Federal Government, nor will Garfield take back the cutting charge that Foraker, in his attack, represents corporations who are seeking to avoid necessary regulation and control.

# SAVED FROM AN OPERATION

## By Lydia E. Pinkham's Vegetable Compound

De Forest, Wis.—"After an operation four years ago I had pains downward in both sides, backache, and a weakness. The doctor wanted me to have another operation. I took Lydia E. Pinkham's Vegetable Compound and I am entirely cured of my troubles."

Mrs. AUGUSTE VESPERMANN, De Forest, Wisconsin.

**Another Operation Avoided.**  
New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. LILY PEYRON, 1111 Kerlerec St., New Orleans, La.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's vegetable compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

If you want special advice about your case write to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

### Climate Failed—Medicine Cured.

It has been abundantly shown that many persons suffering from tuberculosis, and who are really honest, it must be admitted, that the disease is seldom more than "arrested." Something more is needed.

Eckman's Alternative is a medicine made for the cure of Tuberculosis. It has cured this disease and has set many of these cases have been effected where the surroundings were not ideal, where no intelligent care was taken of the patient, where money was scarce, good food and good cooking unusual—yet cures resulted. Now we argue and urge that Eckman's Alternative should be used in every case of Tuberculosis in addition to good nourishing food, and fresh air, which we all need.

The evidence of cures that have been made are interesting reading. A remarkable cure follows—Weldon, Ill. Gentian, "Through Eckman's Alternative I have been saved from a premature grave, and feeling that I might benefit suffering humanity, I take pleasure in writing you a brief history of my sickness, and of your aid in liberating me from it."

On December 11, 1904, I was taken with typhoid pneumonia. My lungs became very much affected, and I spit up blood, and vomited at intervals. I was found, On February 21st, 1905, was advised to go to Fort Worth, Texas, and there an abscess in my right lung broke and discharged. I grew worse and became very much emaciated. My physician informed me that I must go to "Colorado as quickly as possible." I left Texas June 1st, and arrived in Canon City June 3rd, very feeble. After being there two weeks, my physician informed me that nothing could be done, as my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no assurance of recovery.

On the 11th of July I began taking Eckman's wonderful remedy for Consumption, it being very highly recommended. Under it I weigh 158 pounds, I am stout and well and can do any kind of work about my grain elevator. I have not an ache nor pain in my lungs, eat well, sleep well, and never felt better. I would be glad if every person afflicted with Tuberculosis took Eckman's cure—Signed Affidavit. A. KUTHER WEBB.

**Eckman's Alternative cures Bronchitis, Asthma, Hay Fever, Throat and Lung Affections.** Ask for booklet of cured cases and write to the Eckman Laboratory, Philadelphia, Pa., for additional evidence. For sale by all leading druggists and Erman & Son, druggists, Newark, O.

## It's an Opportunity of a Lifetime

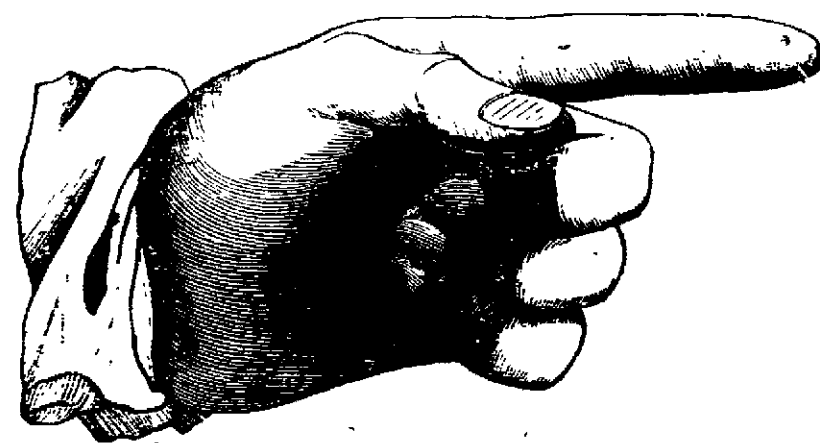

### MERIDITH BROTHERS

### \$50,000 CLOTHING STOCK

ARCADE BUILDING, NEWARK, OHIO

Has been placed in the hands of the National Brokerage Company of Cleveland for a period of ten days time, commencing Wednesday, Nov. 2 and continuing up to and including, Saturday Nov. 12

## THIS IS *the* REASON

This predicament of Meridith Bros., is out of the ordinary; they being compelled to raise \$25,000 and do it quickly, it was a case of borrowing the money and paying interest on same or make a quick and immediate sacrifice of their entire stock to the public. They decided on the latter course, and in

order to make this a quick turn-over they placed their stock in the hands of The National Brokerage Company of Cleveland with instructions to advertise and dispose of sufficient amount of their clothing and shoes (to meet their obligations) regardless of the wholesale cost of the goods. While these conditions are hard on Meridith Bros. (on the other hand) it is a god-send to the public and especially so coming as it does just in the beginning of the season when you need the goods the most. This unforeseen predicament of Meridith Bros., being compelled to raise this amount of money means a tremendous saving to you as you will save almost half on your fall and winter needs, such as men's and Boys' Suits, Overcoats, Shoes, Underwear, Shirts, Hats, Caps, Etc. The store is now closed and will not be open to the public until **WEDNESDAY, NOVEMBER 2nd**

He used the United States reports and instructed his audience by the use of a chart. Mr. Ries is at the head of a large business college in Toledo.

## JOHNSON THROUGH WITH AUTO RACING

Chicago, Oct. 21.—Jack Johnson is through with the auto racing game. Barney Oldfield convinced him that he was not in the game when it came to driving on a track, so he will confine himself to speeding on the roads. The heavy weight champion abandoned himself of this information today and declared he would henceforth confine his activities to the fighting game.

"I may be able to drive a car fast on a straight road," said Johnson, "but I would never take chances on the curves like Oldfield does. In our race I don't believe he slackened his speed on the curves, but you can bet your last dollar I did."

Johnson arrived here yesterday to appear in the suit George Little has brought to recover a \$1200 diamond.

## C. ALBERT MEAD IN TROUBLE WITH U. S. GOVERNMENT

C. Albert Mead, who attempted to back the Newark baseball team this year, and who was to manage Idlewild Park, which he re-named Kugel Park, is now in the toils of the U. S. government for fraudulent use of the mails. He was arrested in Noble county Saturday and taken to Marietta by United States Marshal John McAllister, where he was released on \$2000 bond.

Mead's offense consisted of selling oil stock in the Paraffin Oil Co. The prospectus of the company says it is capitalized at \$1,000,000 and pays 2 per cent dividends monthly. The company also claimed to have nine wells in Noble county, but the officials say there are only five wells and that only sufficient oil is produced to pay the actual expenses.

The warrant for Mead's arrest was issued a year ago and was sworn to by Mrs. Andora Roush of Cheshire, Meigs county, who claims that she was victimized by Mead. Inspector George Pate of this city has been on Mead's trail for a long time, but it took some time to get the necessary data and the arrest was only made Saturday. When the marshal tapped him on the shoulder and told him he was under arrest, Mead offered no resistance and went quietly to Marietta, where he was placed under \$2000 bond, which he furnished.

About a year ago Mead secured possession of Idlewild Park and engaged an architect to prepare elaborate plans for the improvement of the resort. He also decided to back the Newark baseball team, but his money was uncertain and the team was soon thrown on the mercy of the league. This continued until the Indianapolis club bought the franchise. After that Mead left Newark and little was heard of him until his arrest became known. He has been making his headquarters in Zanesville, and several people of that city are said to have become victims of his scheme.

Inspector Pate of the postoffice department went to Mead's office, in the Masonic Temple, Zanesville, and all books, papers and records were seized and hauled away. Miss A. E. Daugherty, a former stenographer of Mead's, was subpoenaed and will be required to appear before the United States commissioner at Marietta, on Nov. 4. She will be required to bring with her certain important papers.

## MEETING OF DEMOCRATIC COMMITTEE

The Licking County Democratic committee met Saturday at 1 o'clock with Chairman J. J. Hill at his home. It was the best attended and most enthusiastic meeting held during this campaign and augurs well for an unusual Democratic victory in Licking county. Every precinct was represented and the reports from them indicate that conditions for great victory are improving each week, nearly all committeemen report accession to our ranks and the Democrats are lining up behind the whole ticket in a way that brings joy to every Democratic heart.

It is not the purpose of any Democrats in Licking county to cast their vote in a way that will assist Senator Dick to retain his seat in the United States Senate. They are determined to have a senator in Washington that will not take his orders from Senator Aldrich or any body else but the people of Ohio.

There were speakers galore Saturday, among them, Congressman Ashbrook, our own popular congressman, and Congressman Sherley of Kentucky, who was profound in his compliments for what he saw and heard at this unusual committee meeting. He urged all Democrats to do their full duty, and said not only Kentucky but many other states were looking to Ohio to furnish a Democratic candidate for president, under whose banner all Democrats could rally, and they would have such a candidate in Governor Harmon, should he be re-elected.

There was but one sentiment at the meeting and that was that the only thing left to insure the election of the whole Democratic ticket was to poll the full Democratic vote and the committeemen call upon all Democrats to allow no trivial affair to keep them away from the polls on election day. The committee adjourned to meet Saturday, November 5.

## FROM NEWSBOY TO MILLIONAIRE

New York, Oct. 21.—From newsboy to banker was an easy rise for Bernard Francis O'Neill, of Wallace, Idaho. O'Neill, who is a member of the executive committee of the Bankers' Association, and chairman of the Republican state committee of Idaho, is paying a visit to New York after an absence of thirty years.

He left here as a ward of the Children's Aid society, after working some time as a newsboy. Today he is several times a millionaire.  
"I studied nights and punched cows days," said O'Neill at his hotel today, "and in the winter I was able to go to school. When I was 17 I was deputy treasurer of Osceola county and by and by I went down into the country and drifted into the banking business. Then I got control of a number of farms and ran them on a profit-sharing basis."

"It doesn't make any difference whether a boy is a ragged newsboy or a high school graduate with money, he will succeed if he is honest and wants to."

"More rich men are holding out their hands in the darkness to give a fellow a lift than ever before, and the need of hustling boys with willing hands and hearts is very great."

## YALE SUPPORTERS NOT ENCOURAGED

New Haven, Conn., Oct. 21.—With the prospect of defeat in her three remaining games staring her in the face, Yale settled down today for a hard grind in preparation for the first of three crucial tests, with Brown next Saturday, Princeton and Harvard will be the other opponents of the blue.

Up to date Yale has shown absolutely nothing to give her supporters any ground for hope of victory in the two big games and it would not be at all surprising if thrown, which he had Harvard to a 12 to 6 score and has progressed far since that game began the general rout by beating Captain Day's men. Saturday's score of 19 to 6 against Coitate, is considered an indication that Yale is at last finding herself, but even the most sanguine admit that the team has a long way to travel before it will be a typical Yale team.

The team will have nightly drills all week in signals and formations.

## PEOPLE'S PULPIT...

Sermon by  
**CHARLES T. RUSSELL**  
Pastor Brooklyn  
Tabernacle

### The Message of the Hour to the Church and the World.

London, October 30.—Pastor Russell of Brooklyn Tabernacle today addressed an audience of nearly four thousand people from the above text. His hearers were of all classes and very intelligent appearing. He had closest attention. He said in part:—

God has messages for those who have hearing ears at each great dispensational change in earth's affairs. These messages have generally been in the nature of forewarning of coming distress and the reasons therefor. Such a message was given to our first parents when they were expelled from Eden—accursed would be the ground for their sakes. Thorns and thistles it would bring forth unto them. In sweat of face they should eat bread thereof until they should return to the ground, from whence they came. Another great message went forth at the time of the flood; another before the destruction of Sodom and Gomorrah; another at the close of the Jewish Age, when Jesus and his Apostles called attention to the prophecies which foretold the Divine rejection of the nation of Israel for a time and declared that all things written in the Law and the Prophets concerning them would have fulfillment, quoting the prophecy which declared that their house would be left desolate; that they would have neither prophet, nor vision, nor priest, nor ephod for many years, but that eventually God's favor would return to Israel—that he would gather them again and fulfill to them everlasting blessings promised both to Abraham and to his descendants—the sure mercies of David.

A week ago we considered the prophetic message, "Comfort ye, comfort ye, my people, saith your God" (Isaiah xl, 1). We noted then that the due time has arrived for the fulfillment of Israel of this comforting message—that as a people the appointed time for the return of favor to it is accomplished because their two-fold disciplines for sin have been fulfilled. Thus our present day is clearly marked and the words of our text following imply that now is the time for a special message to all, in proportion as each may have the hearing ear.

It is the voice of God which calls now through various channels and agencies. It cries not from the "City Babylon the Great." It cries not from the citadel of Christendom; but from the wilderness, from those who are more or less separated; from those who have heard the voice of the Lord saying, "Come out of her, my people, that ye be not partakers of her sins, and that ye receive not of her plagues" (Revelation xviii, 4).

#### Prepare the Lord's Way.

The message of the hour to every hearing ear is, "The Lord whom ye seek shall suddenly come to his temple" (Malachi iii, 1). For centuries you have been praying, "Thy Kingdom come; thy will be done on earth as it is done in heaven." Now your prayer is about to be answered, whether you prayed in sincerity or in hypocrisy. The glory of the Lord is about to be revealed. "All flesh shall see it together." It will not be revealed merely to one nation, nor merely to one holy class. His glory will be revealed in flaming fire—in judgments. All flesh shall see it—the rich and the poor, the learned and the ignorant, the holy and the unholy. But, as the Prophet Malachi declares, "Who shall abide the day of his coming, and who shall stand when he appeareth; for he is like fuller's soap (in its attack upon grease and dirt), and he is like a refiner's fire; as it melts and separates the dross of sin and iniquity (Malachi iii, 2).

The coming of a great earthly king to a city is the signal for a general cleansing up everywhere. And so the Lord declares that the message of his fast-approaching Kingdom should influence all who have the hearing ear to make preparation. To each nation it means. Set your house in order. An inspection is at hand. See that your laws are just and equitable and that they are administered justly. The same message comes to each self-governing city, and lastly, and most important of all, this message comes to each individual, and especially to all who have named the name of Christ. Or, as St. Peter declares, this inspection of the King of kings and Lord of lords must begin with the house of God (I Peter iv, 17). And if the inspection be so searching that it must begin with God's saints, what could we expect of it when it reaches those who are merely nominal Christians and then the world in general! Ah! we may expect just what the Bible advises us will come. "A time of trouble such as never was since there was a nation" (Daniel xii, 1). The message of this hour, dear friends, elsewhere stated in Holy Writ, is, "Seek meekness; seek righteousness. It may be that ye shall be in the day of the Lord's anger" (Zephaniah ii, 3).

#### Hidden Things to Be Revealed.

The greatest Teacher the world has ever known, a Jew, eighteen centuries

ago, declared prophetically of our day that every hidden thing shall be revealed (Matthew x, 26). We see his prophecy fulfilling. The secrets of nations are being exposed. Injustice in its every form is being brought to light as never before. Inequality in financial institutions and in politics and in private affairs is being remorselessly uncracked and brought to light. Expediency and policy might say. Hide these things from public gaze. But under Divine Providence the light is being turned on everywhere and hidden things of darkness are being exposed, sometimes in the evil and sometimes in the good. And sometimes, perhaps, the Adversary succeeds in making the good to appear evil. We are merely noting the general tendency—the great fact so peculiar to our day. We are not saying that every charge of fraud is bona-fide.

#### Leveling Processes Are at Work.

The great leveling processes mentioned by the Prophet may be seen at work everywhere in society—in politics, in finance, in religion. A straight path is certainly being marked out in the wilderness. The people are coming to see gradually what constitutes Justice from the Divine standpoint—the path that Jehovah God will take when coming to mankind to require an accounting for the blessing of religion and of enlightenments granted to humanity in this, our day. Those who point out to mankind the straight paths do not always walk therein themselves. Nevertheless, the great purpose of the Almighty is being accomplished in the exposures of sin and injustices, whether made from the Christian pulpit or from the socialist platform or in the public press. The Divine edict is, "Make straight in the desert a highway for your God" (Isaiah xl, 3)—show his path of righteousness; make it known to all the people.

We should remember, however, that it is one thing to know the path of righteousness, of justice and of equity, and another thing to walk therein. Let us, my dear hearers, see to it that we not only recognize the Divine standards of righteousness and that we proclaim these to all who have the hearing ear, but let us also take heed that we practice what we preach; that we be not condemned in respect to those principles which we allow and acknowledge and proclaim as the Golden Rule to others. Alas for the hypocrites who proclaim the way of the Lord to others, yet ignore that way in their own dealings. We have every reason to believe that honesty is one of the qualities which our God most highly appreciates in his creatures; hence we may be sure that hypocrisy is one of the most abominable qualities in his sight. Harken to the words of the Great Teacher, "Woe unto you, scribes and Pharisees, hypocrites! . . . for ye lade men with burdens grievous to be borne, and ye yourselves touch not the burdens with one of your fingers" (Luke xi, 44-46).

Let all who have named the name of Christ; all who in any sense of the word profess to be God's people, put far from them the hypocrites which appear so abominable in others. Let us be honest. Let us practice even more than we ever preached. Let all who belong to the Lord be indeed burning and shining lights in the world—examples of justice and righteousness in their homes, in their neighborhoods, in the workshop and in the markets. Let us not only proclaim and assist in making straight before our feet the pathway of our God, but let us conform our words and deeds and thoughts thereto. The general result of the uncovering of the hidden things of darkness, and the bringing of them to light, and the proclamation of the straight way of the Lord, will have a great effect, and that effect is declared by the Prophet. It will mean a Revolution—in symbolical language, an earthquake. Note the picture given: "Every valley shall be exalted, and every mountain and hill shall be made low; and the crooked shall be made straight, and the rough places smooth." Not in one instant will all this mighty transformation of society be accomplished. Not at once will all the degraded members of the human family be brought to the general standard or level. Not at once will the mountains and hills (the kingdoms and principalities of the world) be brought down to the common level. Not at once will thus a general equalization of society be effected. But it will be effected. "The mouth of the Lord hath spoken it."

"The leveling process already is begun. In Germany, for instance, one-fourth of the Reichstag is composed of Socialists, notwithstanding the fact that the wealthy have several votes to the poor man's one. Already we see the great mountain (or nation) of Russia yielding to the demands of the people and granting them a measure of civil rights. There we see a practical illustration of the lifting up of the valleys and the bringing low of the mountains. In Great Britain we see another wonderful illustration of this principle; for here, more than in any

other Kingdom of Europe, perhaps, the distance between the mountain tops of autocracy and the depths of social degradation, have been lessened, so that in Great Britain, the change demanded by the new Kingdom, Messiah's Kingdom, will be less than in many other countries. Here it has come gradually.

#### The Glory of the Lord Revealed.

A well-known American author (Henry Ward Beecher's Sister) once wrote some words which seem prophetic:—

"I can see his coming judgments, as they circle all the earth. The signs and portents promised to precede a second birth. I read his righteous sentence, in the crumbling thrones of earth—Our King is marching on."

"The Gentile Times" are closing, for their kings have had their day. And with them sin and sorrow, will forever pass away. For the tribe of Judah's Lion now comes to hold the sway. Our King is marching on.

"The seventh trumpet is sounding, and our King knows no defeat. He will sift out the hearts of men before his judgment-seat. O' be swift, my soul, to welcome him; be jubilant, my feast—Our King is marching on."

The exposure of the frailties of poor humanity—of the shams of society and of religion and of business and politics, all are constituting a great black background, against which the glories of the Lord are being revealed in striking contrast, as the critics of the world mercilessly hew to the lign and lay bare the cankers in politics and pollutions of our social system. The effect of this primarily will be the arousing of the masses against the classes of privilege. Their human idols and ideals will crumble. Their confidence in men will melt. They will give vent to what they will esteem to be a righteous indignation. And so doing they will forget that the masses are equally as unrighteous, unjust, as the more favored classes, in proportion to their opportunities. Wherein they judge others they should also condemn themselves, and the result should be that mercy which the Lord enjoins.

Only those who forgive others their trespasses—who thus manifest a spirit of love and sympathy—need expect to have mercy, consideration, shown them by the new King. He will surely punish injustice and unrighteousness of word and deed and thought in the poor as in the rich, in the ignorant as in the learned, in the outwardly religious as in the outwardly profane. The message of the hour to Christian, Jew and Gentile is what it was eighteen centuries ago, "Repent ye, for the Kingdom of heaven is at hand." Repent and reform respecting public injustices, no matter of how long standing, no matter by whom practised and approved. Repent of and reform from and disown the rank errors to be found in so many Church creeds, dishonoring to our God. Let us be honest in our professions of faith. Repent as respects wrong practices which have crept into our Churches, quite out of harmony with the teachings of Jesus and the Apostles.

Let us return to the simplicity of the early Church. Let us repent of the God-dishonoring statements we have put forth in the name of God and religion and the Bible, by which we palmed off bad tidings of great misery, as instead of the true Gospel of Good Tidings of Great Joy which shall be unto all people. Let us repent of and abandon the falsehoods and misrepresentations so common in business life—the subterfuge of the Truth to money. Let us repent of and put away the dishonesties of the Stock Exchange, through which the weak and ignorant financial lambs are deceived and impoverished. Let us repent of the iniquities which abound in nearly every home, even those where Christ is claimed to be the Head—injustices of husbands toward wives and of wives toward husbands, the strong-minded toward the weaker-minded—failing to observe the Golden Rule. Let us repent of the injustices practised by parents upon children, in violation of the same Golden Rule. Let us repent of the dishonor and disobedience to parents practised by many children. Let us repent of the selfish ambitions of our own hearts and let us pray earnestly to the Lord, "Create within me a clean heart, O Lord, and renew a right spirit within me;" "Cleanse thou me from secret faults; keep back thy servant also from presumptuous sins" (Psalm li, 10; xix, 12, 13).

#### The Time is at Hand.

True, these and similar exhortations have been made by the Lord's people from time immemorial. And yet the present proclamation is different from all others in that it proclaims, "The time is at hand." "The Kingdom of Heaven is at hand." Not an earthly kingdom with an earthly king; not a papal kingdom exhorting the world to righteousness in the name of the Lord; Not a Protestant or Jesuitical empire exhorting to godliness! But the real Kingdom of God's dear Son so long promised, so long prayed for, is at hand! It will be a Spiritual Empire, replacing and displacing Satan's empire in the world and using as its earthly agency Israel restored to Divine favor. Men will not say, Lo, here, or, there, but, Behold, the Kingdom of God will be in the midst of mankind—everywhere present, empowered to bless and empowered to punish. The Great Prince of Light, the King in his glory, with the elect as his Bride on the heavenly, spiritual, invisible plane, will soon take the scepter of earth. His great power and the glorious majesty of his righteous rule will be manifest in the judgments, which will prevail—rewards and punishments. "When the judgments of the Lord are abroad in the earth, the inhabitants of the world shall learn righteousness" (Isaiah lxvi, 5).

### YOUNGSTER WANDERS AWAY FROM HOME

Young Florent Phillips was lost Saturday night when he was picked up by the police and taken to police headquarters, and now the youngster is lost again, although his parents have been found. The boy was found wandering the streets when he was taken to police headquarters. There he said his name was Florent Phillips, but he didn't know where he lived. A bed was made up for him and he slept at the patrol house, while the police tried to locate his parents.

Yesterday Chief Hindle and Juvenile Officer Sheridan took the boy around the streets with them in the effort of finding someone that knew him. Finally the lad said that he guessed he had found his bearings, and in a general way he told the police where he wanted to go. They wrote the number of the phone at police headquarters on a card and

gave it to the boy, with instructions that if he became bewildered to telephone and an officer would be sent after him.

Nothing more was heard from him and it was supposed that he had reached home, but this morning a telephone message came from Mt. Vernon, asking for information about the boy, who had left his home there. Now the youngster is again lost and the police are trying to locate him.

### SEA FOOD DINNER ON BOARD STEAMER

(Washington, N. C., Daily News.)  
Captain M. H. Bonner was just to a delightful dinner party last evening on board his vessel, steaming "Texas" at the Norfolk-Savannah stage. Those who enjoyed Captain Bonner's intimate hospitality were Engineer Capt. Hanlon and passengers, Capt. of Norfolk, and the crew of steamboat inspection service.

First mate of the Hatteras; Attorney John Bonner, and Mr. Bonner, manager of the European Tour department of the Daily News. The menu was a most delightful one served after the well known style of the host, and consisted of a variety of well prepared sea foods. Chief Engineer Hanlon and Captain Bonner completed their quarterly inspection of the Hatteras in the afternoon, as she lay at dock here and the vessel left for excellent condition, which reflects the credit on Captain Bonner and his able crew.

## MOTIONS FILED ASKING FOR BAIL IN RIOT CASES

Number of Prisoners in County Jail  
Over Three Months Wish to Be Re-  
leased on Bail—Court News.

In the cases of the State of Ohio vs. Robert Cleveland and Edgar Owens, motions have been filed by Jones & Jones to admit the defendants to bail, on the ground that they have been in the county jail for a period of three months; that the cases have not been assigned for trial; that they are not guilty; that there was not sufficient evidence before the grand jury to warrant said jury in returning indictments; defendants offer bond in any reasonable amount for their appearance at the trial.

Prisoners in abatement have also been filed, alleging that the jury commis-

sioners who selected the grand jury had no authority in the law to select the names which went into the jury wheel, and that, therefore, said purported grand jury was not a legally constituted grand jury, and had no authority in law to return indictments against the defendants. They ask that they be dismissed and discharged from custody.

Applications and motion to admit to bail have been made and filed in the cases of State vs. Clarence Mulligan, Art Dover, Edward Woolard and Frank Graef. Several affidavits have been filed in relation to the motions.

William M. Deal vs. John Richie, et al., an action in foreclosure, sale confirmed and deed and distribution ordered.

Margaret Higgins vs. T. & O. C. Ry. Co., death of plaintiff suggested.

Flord Norris vs. Chas. B. Fisk, judgment of settlement. A suit brought to recover damages for breach of contract for the sale of real estate.

Joseph Bogardus vs. Wm. Brooks, submitted to court on an agreed statement of facts.

Margaret Ritchey vs. W. H. Parkinson, for trial Saturday; settlement reported pending.
